

Vinay Nain | Frontend Developer

9517930608 | Vinaynain2601@gmail.com | Fazilka, Punjab

Summary

Front-end developer with a strong foundation in building responsive and interactive web applications. Proficient in HTML, CSS, Javascript, Node.js, JQuery, React.js, UI/UX, GSAP, Framer-Motion, and Tailwind CSS, with a keen eye for design and usability. Adept at collaborating with UI/UX designers to create seamless user experiences. Seeking to leverage my skills in a challenging front-end development role.

HTML, CSS, JavaScript, React.js, Tailwind CSS, GSAP, Framer Motion, VSCode, GitHub, Figma, UX Design, UI Design, Communication skills, Github, Git, Collaboration, Web Design, Responsive Web Design, Web Animation

Experience

BirthVenue

Front-End Developer & UX/UI Designer | 01/2024 - 06/2024

- Developed and maintained a Web3 social media platform using React.js, overseeing the entire development lifecycle from initial design to deployment and ongoing support. Utilized modern React features and state management libraries to create a dynamic and scalable user experience.
- Enhanced user experience and performance by 30% through the implementation of optimized code practices and efficient UI design. Leveraged advanced techniques such as code splitting, lazy loading, and performance profiling to reduce load times and improve overall application speed.
- Collaborated closely with UI/UX designers to integrate intuitive user interfaces, which contributed to a **20% increase in user engagement**. Actively participated in design reviews and provided feedback to ensure that the final product met both aesthetic and functional requirements.
- Conducted extensive usability testing to ensure the platform's **cross-browser compatibility and responsive design**.

Freelance Experience:-

- Designed and developed a responsive website for a client targeting the Japanese audience using HTML, CSS, and JavaScript.
- Worked closely with the client to understand their requirements and deliver a culturally appropriate high-quality solution.
- Implemented best practices for web development, ensuring optimal performance and accessibility.
- Received positive feedback from the client, leading to increased visibility for the business.

Projects:-

- **Landing Page:** Developed a responsive landing page using React.js, Tailwind CSS, GSAP, and Framer Motion.
- **Gym App:** Built a React app that provides workout sets and auto-generates workout routines based on user input.
- **To-Do List:** Created a dynamic to-do list application with React.js, featuring item addition, removal, and editing.
- **Simon Says Game:** Implemented a classic Simon Says game using JavaScript.
- **QR Generator:** Developed a React-based QR code generator for customizable QR code creation.
- **Weather App:** Created a weather application using React.js that provides real-time weather updates and forecasts.
